

SPILL CONTROL PRODUCTS

FOR ENVIRONMENTAL PROTECTION

SPILLFORCE

The **SPILLFORCE** range of absorbents and spill control products are used to protect the environment from the harm that occurs when liquids escape and contaminate water and soil.

Caring for the environment ensures that the groundwater and surface water is clean, for the well being of people, animals, and the ecosystem.

The **SPILLFORCE** range of absorbents and spill control products:

- Prevent water pollution and soil contamination
- Halt leaks, spills, and escapes of contaminated rainwater and firewater
- Stop liquids from passing through the ground from site to groundwater to waterways and harming the environment.

Use **SPILLFORCE** quality products to contain and manage potential threats to the environment.

Keep the workplace safe with **SPILLFORCE** products.
A safe and clean workplace means increased performance.

PERFORMERSOAK

Industry standard absorbents

SOAKRITE

Organic absorbents

These products clean up liquid spills of all types.
They are available as General Purpose, Oil & Fuel, and Chemical.

GENERAL PURPOSE

Use for coolants, solvents, oils, fuels, mild acids and mild alkalis.

General Purpose products absorb non-aggressive liquids, chemicals, oils and water. They are colour coded grey and are used to clean up most kinds of industrial fluids. Use in places where there are various types of liquids, both oil based and water based.

OIL & FUEL

Use for oils, fuels, diesel, petrol and petroleum based solvents.

Oil & Fuel products absorb oils and fuels on land and water. They are colour coded white and are for use when conditions are wet or dry. They will not absorb water, and remain afloat on water even when saturated with oil.

CHEMICAL

Use for acids, alkalis, solvents, coolants, oils and fuels.

Chemical products absorb aggressive and non-aggressive liquids, chemicals, oils, and water. They are colour coded yellow and are for use on hazmat spills as well as general purpose liquids. Use in chemical factories and their associated industries and in laboratories.

SPILL KITS

Spill Kits ensure you're ready to quickly respond to a spill. The containers are colour coded for easy identification at different areas on a site. General Purpose containers are red, Oil & Fuel yellow, and Chemical are blue. They are available as **Sorbmax**, **Premiersorb**, **Performersoak** and **Soakrite** to suit the varied site requirements and types of spills in industry.

SORBMAX

Sorbmax spill kits contain super performance products. The labels are colour coded blue.

PREMIERSORB

Premiersorb spill kits contain durable, premium products. The labels are colour coded green.

PERFORMERSOAK

Performersoak spill kits contain industry standard absorbents. These Oil & Fuel spill kits are ideal for marine use. They contain absorbent booms which join together to form any length using the clips and rings. Use when near waterways, rivers, lakes, and harbours. The spill kit labels are colour coded red.

SOAKRITE

Soakrite spill kits contain organic absorbents. The labels are colour coded yellow.

These spill kits clean up liquid spills of all types.

GENERAL PURPOSE

Use for coolants, solvents, oils, fuels, mild acids and mild alkalis.

General Purpose products absorb non-aggressive liquids, chemicals, oils and water. The products are colour coded grey and are used to clean up most kinds of industrial fluids. Use in places where there are various types of liquids, both oil based and water based.

OIL & FUEL

Use for oils, fuels, diesel, petrol and petroleum based solvents.

Oil & Fuel products absorb oils and fuels on land and water.

The products are colour coded white and are for use when conditions are wet or dry. They will not absorb water, and remain afloat on water even when saturated with oil.

DRAIN SEALS

POLYURETHANE DRAIN SEAL

- Reusable seal for drains, grates and manholes
- Resistant to hydrocarbons and most chemicals

PART NO.	DESCRIPTION	SIZE	PACK QTY
25-524	Drain Seal	45cm x 45cm	1
25-537	Drain Seal	60cm x 60cm	1
25-550	Drain Seal	90cm x 90cm	1
25-563	Drain Seal	107cm x 107cm	1
25-576	Drain Seal	120cm x 120cm	1
